Journee

Journee – MVP Roadmap & Folder Structure

A **personal AI-driven dashboard** that tracks your **mood, focus, and energy**, and uses AI + RAG to give you **personalized insights, recommendations, and daily/weekly itineraries** for optimal productivity and wellness.

🚀 Core Features – Journee

👤 1. Customer Program (End Users)

🎯 Target Audience

- Students & young travelers
- Working professionals (weekend & short trips)
- Travel enthusiasts & explorers
- Solo/couple travelers looking for personalized itineraries

🔑 Core Features for Customers

1. **AI Adventure Log & Suggestions (RAG)**
   - Input: describe past trips/adventures.
   - AI analyzes interests & suggests new destinations (cities, cafes, activities).
   - Context-aware: pulls partner offerings + external travel data.
2. **AI Itinerary Planner**
   - Generates **day-wise itinerary** (Morning → Activity → Lunch Café → Evening Activity → Hotel).
   - Combines AI suggestions + partner recommendations.
   - Export to **Google Calendar / PDF / CSV**.
3. **Bookmark & Save Trips**
   - Save itineraries in personal dashboard.
   - Shareable itinerary links.
4. **Smart Notifications & Travel Reminders**
   - Trip reminders (flights, bookings, activities).
   - Alerts for saved itinerary items (ex: “Don’t miss Café XYZ in Goa”).
5. **Customization & Personalization**
   - Preferences: budget, duration, style (adventure, chill, cultural).
   - Dark/Light/Hybrid theme.
   - Configurable travel goals (explore X new cities this year).

🤝 2. Partner Program (Hotels, Cafes, Travel Agents, Experiences)

🎯 Target Partners

- Hotels, homestays, hostels.
- Cafes & restaurants.

- Local travel agents & tour operators.
- Experience providers (trekking, city tours, workshops).

🔑 Core Features for Partners

1. **Partner Dashboard**
   - Register business + manage profile (name, images, offerings, pricing).
   - Track **views, clicks, bookings** from Journee users.
2. **AI-Powered Visibility**
   - Integrated into customer itineraries when relevant.
   - Example: “Liked trekking in Manali?” → Suggest **Partner Café in Leh**.
3. **Custom Branding & Promotions**
   - Highlight partner deals/offers in suggestions.
   - Paid promotion slots for higher visibility.
4. **Analytics & Reports**
   - Weekly insights: top searches, user demographics, engagement.
   - Data to refine offerings.
5. **API/Integration Program (Future Expansion)**
   - Partners can embed Journee itinerary planning inside their own apps.
   - Integrations with booking platforms & travel APIs.

📦 Optional Features (Future Scope)

1. **Digi-Locker for Travel Docs**
   - Store tickets, bookings, IDs, passes securely (possibly via S3 or 3rd-party APIs).
2. **Payment Gateway Integration**
   - Stripe / Razorpay for direct booking inside Journee.
3. **Community Features**
   - Travelers share experiences, reviews, itineraries.
   - AI-curated community recommendations.

⚡ This way, Journee has a **2-sided ecosystem**:

- Customers → Get **personalized itineraries**.
- Partners → Get **visibility & bookings**.
